Photographs at the Conference

Our gratitude to those who attended the conference

Dear Colleagues,

Thank you very much for your attendance at the IPA Asia-Pacific TOKYO Conference. We wish to offer a heartfelt thank you to everyone for their enthusiastic participation which made the conference such a tremendous success.

Great efforts went into hosting the conference in Tokyo. There was however no small amount of concern as to whether we could provide an appropriate place of learning to facilitate the exchange of everyone's clinical experiences and academic exchanges for all participants at this conference, in our preparations and including operations on the day.

However, with the very active support and cooperation of the Programme Committee members, centering on Chairwoman Teresa Pai, as well as representatives from the Asia-Pacific regions' IPA Societies, Study Groups and psychoanalytic groups, we are delighted to have been able to host what was a fascinating conference.

Nor can we neglect the patient leadership of IPA Vice-President Nick Sergio and the tremendous contributions of everyone who contributed superb lectures and paper presentations. And we all are grateful to Ms. Karina Gutierrez of the IPA head office and other efficient officers.

Finally, we want to extend our thanks to our President, Virginia Ungar, for the persistent and reliable support.

Thanks to you all, there were more than 300 participants from over twenty countries. Fascinating and intellectually engaging lectures, presentations and lively debate were exchanged throughout the entire conference, and as a forum for international exchange, enjoyable exchanges took place even during coffee breaks. We think the main theme, 'Dependence' received both time and place, and gave rise to thoroughly satisfactory contributions.

We hope that the conference to be held in Australia two years from now will be an even more enriching event, and once again we would like to express our heartfelt appreciation to you all for your contributions to the abundant success of this conference.

Arigato-gozai-mashita.

With deepest gratitude and our best wishes,

The Japan Psychoanalytic Society
President Osamu Kitayama M.D.
Secretary Kunihiro Matsuki M.D.
On Behalf of the Executive Committee
